

How to Access the Hydrologic Soil Group Table from NRCS Web Soil Survey Online

1. Load NRCS Web Soil Survey page -- <https://websoilsurvey.nrcs.usda.gov/app/>
2. Click on green "Start WSS" button
3. On left side of page, under "Quick Navigation," click on "Soil Survey Area" cell
4. At State cell, arrow down to Maryland
5. At County cell, arrow down to St. Marys County
6. Below "Soil Survey Area", click on little circle next to "St. Mary's County, Maryland"
7. Below or above that click on "Select Map Units"
8. At top of Map Units list, click on "Select All"
9. At top of page, click on "Soil Data Explorer" tab
10. On next row, click on "Soil Properties and Qualities" tab
11. On left side of page, click on "Soil Qualities and Features" cell
12. Under that, click on "Hydrologic Soil Group" cell
13. Under Advanced Options, next to Aggregation Method, arrow down and click on "Dominant Component"
14. Under that click on "View Rating"
15. Near top of page, on right side, click on "Printable Version"
16. Put in subtitle name if needed, then click "View"
17. If you are using Internet Explorer, upper right hand corner, click on Tools icon.
18. Click on file, save as. (this will save the table as a pdf document).
